SUMMARY

Web Developer with experience designing organizational tools. Known as a detail-oriented coder with a passion for developing apps with the consumer experience in mind. Effective team-player with skills for problem solving and staying calm while under pressure. Motivated to develop applications that look good and feel great with mobile-first design. Positioned to provide an intuitive perspective on the instincts of the user.

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript, SQL,
Technologies: React, Node.js, Bootstrap, Materialize, jQuery, MongoDB, MySQL, JSON, CSS Grid

PROJECTS

Knight Fall:
github.com/KaitlynSalemi/Knight-Fall | thawing-cliffs-03966.herokuapp.com
- A fun story-based role-playing game where the user is thrust into a medieval time where the hero's home town is under attack from the mercenaries of Baltic Blackwood.
- In this four-person team I was responsible for some back-end and log-in/sign-up authentication.
- React, Node.js, MongoDB, Passport

Titanic, An Edutainment Experience:
github.com/KaitlynSalemi/Titanic_Educational_Experience | calm-ravine-14459.herokuapp.com/
- An entertaining and educating experience about the Titanic sinking and the passengers on board.
- In this team of three, I was mainly responsible for the styling and the connections from the back-end to the front-end.
- MySQL, Express, Node.js, JavaScript, CSS Grid, Handlebars

Date Night Generator:
github.com/KaitlynSalemi/Date-Night-Generator | kaitlynsalemi.github.io/Date-Night-Generator
- A fun app where the user can search for a restaurant and a movie to match it.
- This project was built by a two-person partnership. I am responsible for the styling and some programming.
- Third party APIs, jQuery, Materialize

EXPERIENCE

Stage Manager   2018 – Present
Freelance   Chicago, IL
Organized creative teams with strong communication skills to deliver a realized theatrical production. Implemented rules for safety and fostered a supportive working environment. Facilitated the actors in their performance while orchestrating sound, lights, props, set pieces, and scene changes all according to plan.

EDUCATION

Full Stack Web Development Coding Bootcamp: Northwestern University, Chicago, IL
Bachelor of Music in Music Business and Theatre: Elmhurst College, Elmhurst, IL
